

Welcome to the KOTESOL Gyeonggi-Yongin Chapter

Where is the Yongin Chapter Located?

We meet at Kangnam University up the hill from the Kangnam University Yongin Everline Station.

Workshops are held on the 2nd floor of the Insakwon (인사관) Building, Room 219.

What is KOTESOL?

KOTESOL is an association of English teachers in Korea. Our membership includes natives and non-native English speakers. Teachers of all levels and ages of students are members, too.

We are committed to helping our members become the best teachers possible. To do this we provide local workshops, a teacher magazine, a yearly National Conference, and an International Conference. They are all organized and run by teachers to help teachers.

What Does Your Chapter Offer?

Yongin Chapter and Workshops

Our chapter provides workshops on a wide range of topics. Any educator can discuss today's issues and techniques that can be applied in the classroom. Also workshops are a great resource for networking and professional development. Everyone is welcome to attend these events, so come and check a few out.

Social Events

We like to be social as well. We have different outings or sometimes an after meeting dinner as a way to socialize and network with others. We like to make friends, share ideas, and just enjoy good company. The connections you make as a member can last a lifetime.

Conferences

KOTESOL runs two large conferences every year: the National Conference and the International Conference. There are also various regional conferences, such as the annual Yongin Conference.

Publications

KOTESOL publishes The English Connection four times a year. It includes articles on a wide range of topics. Members can submit their own articles for publication and in doing so can help to improve English education in Korea.
