

Creativity in Action: Exploring, Enhancing and Engaging

Carl Dusthimer

cdusthimer@gmail.com

Abstract:

This presentation will explore what creativity is and how teachers can address it in their classrooms at all levels. Carl will draw on his experience teaching a creativity course at the Korea National University Education, where the three course components were defining creativity, enhancing creativity in individuals (of all ages) and incorporating creativity in the classroom. Carl will also propose seven steps of creative thinking as a framework of exploring creativity with students.

Bio:

Carl Dusthimer came to Korea in 1988. He was a founding member of Korea TESOL and served as president from 1997 to 1999. Carl was Director of Education at the Gyeonggi English Village in Ansan and Paju where he was in charge of program and curriculum development. Currently, Carl runs a content development company and is very interested in helping teachers and students explore and develop their creativity.
