

DC Chapter: KOTESOL

Directions to Solbridge:

From Daejeon Station, exit to the west side (this is the main exit—east is *very* quiet).

- **We recommend a cab.** You might try asking for “Woosong Daehakyo Solbridge building” (actually the Naver Map says “solporex”—which is the sports center in the building)
- The “healthy adventurer alternative” is not bad at all—**just walk!** If you just have a backpack or a light bag (our streets are a little rough on roller bags), it will take about 10-15 minutes. Again, exit to the west/main side, turn right up the main road running parallel to the train tracks, up to the next big intersection and turn right, go under the train tracks and Solbridge is the tall (13 floors?) building on your right. The physical map below will help you find your way.

60, 63, 201, 202,
611, 613, 620,
802, 501
